

I am an adult and want to keep the right to listen to what I want, when I want.. I dont need nor want someone dictating to me what they find inappropriate or vulgar... Im not offended to what you are. I find the southern baptists who preach hate against other religions, or gays, offensive... If I am a paying customer of XM, I want to be able to hear what I want to hear.... Its not my problem if kids whos parents arent being attentive hears a bad word on the radio... Im an adult, and dont need to be punished...

thanks
